

JAWA SAKHER

FRONTEND DEVELOPER | REACT.JS | JAVASCRIPT

Syria . jawasakher@gmail.com · [GitHub](#) · [LinkedIn](#) · [Portfolio](#)

PROFESSIONAL SUMMARY

Frontend Developer specializing in React.js, JavaScript, and responsive user interface development. Experienced in building and deploying modern web applications with reusable components, authentication flows, API integration, and modular frontend architecture. Focused on clean UI/UX, maintainable code, and practical project delivery. Currently expanding backend knowledge through Node.js, Express.js, REST APIs, Prisma, and PostgreSQL.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, React Router, Tailwind CSS, Responsive Design, Component-Based Architecture

Backend: Node.js, Express.js, REST APIs, API Integration, Routing, Middleware, CRUD Operations

Databases & Authentication: PostgreSQL, Prisma ORM, Neon, LowDB, Clerk, JWT, bcrypt

Tools: Git, GitHub, Vite, npm, Nodemon, VS Code, Requestly, Cloud Deployment

Additional: Mobile-First Design, UI/UX, Semantic HTML, SEO Fundamentals

Currently Learning: TypeScript, Next.js, Advanced Backend Development

FEATURED PROJECTS

Nexora Estates — Real Estate Platform

React · Vite · Tailwind CSS · React Router · Context API · Clerk

- Built and deployed a responsive real estate platform featuring property listings, detailed property pages, image galleries, inquiry workflows, and an owner dashboard.
- Implemented Clerk authentication, protected routes, session management, and property management flows for adding, editing, and managing listings.
- Developed a modular React architecture with reusable components, contextual state management, responsive layouts, and optimized image-loading practices.

Aivora AI Chatbot — Full-Stack AI Chat Application

React · Vite · Node.js · Express.js · JWT · bcrypt · LowDB · REST APIs

- Developed a full-stack AI chatbot application with a React frontend and an Express.js backend.
- Implemented user registration and login, password hashing, JWT-based authentication, protected API routes, and user-specific conversation management.
- Built a conversation sidebar, message persistence, API communication, and a responsive chat interface with theme support.

SkyReach — Digital Agency Website

React · JavaScript · Tailwind CSS · Framer Motion

- Developed and deployed a responsive digital agency website using reusable React components and a modular section-based structure.
- Implemented responsive navigation, dark/light theme support, animated transitions, interactive UI elements, and mobile-first layouts.

Live Demo: <https://skyreach.jawasakher.workers.dev/> · GitHub: <https://github.com/jawasakher/Skyreach>

EduBridge — E-Learning Platform

React · Vite · JavaScript · CSS · Responsive Design

- Built a responsive e-learning platform with React and Vite using reusable components and modern frontend development practices.

- Applied component-based organization, semantic HTML, and maintainable styling patterns to create a clear, user-friendly interface.

Live Demo: <https://e-learning-platform-24.jawasakher.workers.dev/> · GitHub: <https://github.com/jawasakher/E-Learning-Platform>

ADDITIONAL PROJECT

Agency.AI — AI Agency Landing Page

React-based responsive landing page focused on modern UI, reusable sections, responsive navigation, and visual presentation.

Live Demo: <https://agency.jawasakher.workers.dev/> · GitHub: <https://github.com/jawasakher/Agency.AI>

EDUCATION

Syrian Virtual University — Syria

B.Sc. in Information Technology Engineering — In Progress

Medical Institute — Emergency Medicine

Completed · Final Average: 87/100
